DETAILED ACTION

Claims 96-98, 100, and 119-150 have been cancelled by Amendment filed on 07/28/2003. Claims 76, 99 and 151 have been amended and claims 153-179 added by an amendment filed on 07/28/2003. Therefore claims 76-95, 99, 101-104, 151-179 are pending in this application. The newly added claims, 153-179, drawn to method of use are withdrawn from further consideration by the Examiner, 37 C.F.R. § 1.142(b), as being drawn to a non-elected invention.

Status of the Claims

The scope of the elected invention, as described in the Office Action mailed on January 27, 2003, is as follows:

Compounds of Formula Ib, , wherein: R¹ is as defined except that it is not further substituted by heterocyclic group; R² is Y-Z; R³ is as defined; R⁴ is dichloro substituted phenyl; R⁵ is as defined; R⁶ is four to six-membered aromatic, partially saturated or unsaturated non-heterocyclic group; R⁷-R¹¹ are as defined; X is as defined; Y is a direct bond or C₁.C₆ alkylene; Z is as defined.

As a result of the election and the corresponding compounds identified supra, the remaining subject matter of claims 76-95, 99, 101-104 and the newly added claims directed to method of use as stated previously (in Office Actions mailed March 19, 2003) are withdrawn from further consideration pursuant to 37 CFR 1.142 (b) as being drawn to non-elected inventions.

Art Unit: 1626

The compounds, which are withdrawn from consideration as being non elected subject matter, differ materially in structure and composition from the compounds of the elected invention. The withdrawn compounds contain varying functional groups which differ from those of the elected invention such pyridazinyl, pyrimidinyl, morpholine, thiazine, group etc. This recognized chemical diversity of the functional groups can be seen by various classification of these functional groups in the US classification system i.e. class 544 subclass 106+ (morpholine), class 544 subclass 3+ (thiazine), class 544 subclass 224+ (diazine) etc. Therefore, the compounds, which are withdrawn from consideration as being for non elected subject matter, differ materially in structure and composition and have been restricted properly as a reference, which anticipated, but the elected subject matter would not even render obvious the non-elected subject matter.

Applicant's claim involves more than one independent or distinct invention . Under 35 U.S.C. 121, the claims may be restricted and the examination limited to the restricted invention. Accordingly, restriction as has been presented in this application is proper. The requirement to restrict is repeated and made Final.

Response to Amendment

Applicants Amendment filed on July 28, 2003 have been considered, but are not able to overcome the objection of claims 76-95, 99, 101-104 for having compounds directed to non elected subject matter.

Objections

Claims 76-95, 99, 101-104 remain objected to for containing compounds directed to non-elected subject matter as stated in the previous Office Action.

Therefore **THIS ACTION IS MADE FINAL** . Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136 (a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
